

COOPERS YEAST STRAINS

The following explains the ink-jetted code on the yeast sachets, supplied with each beer kit:

Sachets carry a Julian date code and may also carry letters to denote the type of yeast. For example, if they were packaged on the 25th of September 2007 = 268th day of 2007:

Original Series:- Ac (26807)

International Series:-

Australian Pale Ale - Ac+L (26807 Int)

Mexican Cerveza - Ac+L (26807 Int)

European Lager - L (26807 P)

Canadian Blonde - Ac (26807)

English Bitter - Ac (26807)

Thomas Coopers Selection:-

Wheat - A (26807 W)

IPA - Ac (26807 IPA)

Irish Stout - A (26807 IS)

Pilsener - L (26807 P)

Australian Bitter - Ac+L (26807 PS)

Heritage Lager - Ac+L (26807 PS)

Sparkling Ale - Ac+L (26807 PS)

Traditional Draught - Ac+L (26807 PS)

Note:

Ac = Coopers ale yeast (our own strain, not the same as the yeast in our commercial ales, developed in-house and propagated under contract).

A = ale yeast and L = lager yeast (these strains are commercially available dry yeast and their details are held in confidence).
